Third International Fascia Research Congress

MASSAGE THERAPISTS'
ASSOCIATION
OF BRITISH COLUMBIA

VANCOUVER,
BRITISH COLUMBIA

MARCH 28-30, 2012

WELCOME

The Third International Fascia Research Congress is scheduled for March 28-30, 2012 in Vancouver, British Columbia, Canada. Workshops before and after the main proceedings are also planned.

This conference will be hosted by the [Massage Therapists' Association of British Columbia \(MTABC\)](#). Over 700 BC RMTs participated in the 2007 Congress replays, reflecting the recognized impact that this research has on massage therapy. The selection of the MTABC by the directors of the Fascia Research Congress and the congress governing sponsor, the [Ida P. Rolf Research Foundation](#), is a recognition of the excellence, quality and commitment of BC's Registered Massage Therapists (RMTs).

The 2012 Fascia Congress will, as always, center on the latest and best research on the human fasciae. Additionally---and recognizing the interests of clinicians in gaining insights that will bear on practical applications---the program will be designed to include more presentation time to relating the research findings to clinical issues, particularly the practical applications of fascial layers.
